• RED-tech Technology Reflectorless EDM
• LongRange Data Communication
• MAGNET™ Field On-Board Software
New Auto Pointing “Direct Aiming Technology”
The DX Series employs “Direct Aiming Technology” featuring a new intelligent algorithm that automatically aims to the prisms with precisely corrected angle readings.

The technology works even in dim or dark conditions where the prism is difficult to be found. Whatever the job requires and wherever operators must go, the DX Series gets your job done faster and easier while still maintaining high accuracy.

Automatic Aiming Function is Productivity
The DX Series provides consistent auto pointing accuracy speed regardless of operators skill level.
- More than what human eyes can do
- Easy “Stake-out” operation
- Higher productivity in your job field
- Mesh Scan operation
- Easy “Topo” operation

Rough Aiming
Push the Trigger key
Auto Pointing

RED-tech Technology Reflectorless EDM
- Reflectorless operation from 30cm to 1,000m*.
- Sokkia’s traditional pinpoint precision in reflectorless distance measurement.
- Fast distance measurement of 0.9 seconds.
- Coaxial EDM beam and laser-pointer provide fast and accurate aiming.
- Ensures accuracy even with reflective sheets.

* With Kodak Gray Card white side (90% reflective).
  Brightness level at object surface: <=500 lx.

LongRange Data Communication
The DX Series of total stations feature Bluetooth® Class1 technology for reliable data communications.

Advanced Angle Measurement System
Sokkia’s original absolute encoders provide long-term reliability in any job site condition. DX-101 features groundbreaking IACS (Independent Angle Calibration System).

Waterproof and Rugged
- IP65 dustproof / waterproof rating.
- Standard usage temperature range -20 to +50°C.

User-Friendly Operation
“STAR-KEY” instantly brings up functions. Trigger key lets you take a series of measurements without taking your eye from the telescope. Control panel consists of 26-key board with color LCD touch screen display.

Get the Job Done Quickly and Easily in any Environment.

An industry first!
New function to protect your investment
TSshield is a standard feature on all new models of Sokkia total stations. Its advanced communication system provides new opportunities to secure and maintain your investment.

*For more detail of TSshield, please refer to the TSshield’s leaflet. This service may not be available in some areas.
Easy “Topo” and “Stake-out” Operation
Just “Rough Aim” and “Press Trigger button” to get precise aiming and measurement to the prism target. Stake-out can be easily done by automatic turning and guide light.

Industry’s First TSshield™ System
Fast and Powerful EDM 1,000m Non-Prism Range
Easy Access USB Type A/B Flash Drive Port
Advanced Angle Measurement System
Exclusive “STAR-KEY” Functionality
Rugged Waterproof/Dustproof IP65 Design
Backlit 26 Key Keyboard with Directional Arrow Key
Software
MAGNET™ software is tailored for use with Sokkia total stations in both field and office works.

MAGNET™ Enterprise
A manager’s dream of tracking all field and office data in one simple to access web interface. Store and exchange your field data in the Enterprise cloud. Save the drive time by sending your field and office updates to the cloud rather than driving back to the office.

MAGNET™ Office
Full CAD functionality with MAGNET™ Office Site and Topo. Or field data processing with MAGNET™ Office Tools inside AutoCAD® products, like Civil3D®. The MAGNET™ Office solution has what you need. Pick the module that fits your needs.

MAGNET™ Field
Powerful on-board software that covers full functions for surveying and engineering tasks. MAGNET™ Field handles data collection, stake out, roads and coordinate geometry.

Angle measurement

- Display resolutions (selectable): 0.5” / 1” (0.0001 / 0.0002gon, 0.002 / 0.005mil) / 1” / 5” (0.0002 / 0.001gon, 0.005 / 0.02mil)
- Accuracy (ISO 17123-2:2001): 1” / 5”
- IACS (Independent Angle Calibration System): Provided
- Dual-axis compensation / Collimation compensation: Dual-axis liquid tilt sensor, working range: ±6” / Collimation compensation available

Distance measurement

- Laser output: Reflectorless: Class 3R / Prism/sheet mode: Class 1
- Measuring range (under average conditions):
  - Reflector sheet: RS90N-K: 1.3 to 50m (4.3 to 164ft.), RS150N-K: 1.3 to 50m (4.3 to 164ft.), RS300N-K: 1.3 to 50m (4.3 to 164ft.)
  - Mini prisms: CP01: 1.3 to 700m, OR1PA 1.3 to 500m
  - Three AP prisms: to 50m (164ft.)
- Display resolution: Fine: 0.0001 / 0.001m / 0.0001 / 0.001ft., 1/16 / 1/8in.
- Rapid: 0.001m / 0.01ft. / 1/8in. Tracking: 0.01m / 0.1ft. / 1/2in.
- Measuring time: Fine: 0.9s (initial 1.5s), Rapid: 0.6s (initial 1.3s), Tracking: 0.3s (initial 1.3s)

Motor drive system

- Type: DC Servo motor
- Max Rotation speed: 70°/sec

Auto Pointing

- Working range:
  - One AP prism: 1.3 to 1,000m
  - Mini prisms: CP01: 1.3 to 700m, OR1PA 1.3 to 500m

OS, Interface and Data management

- Operating system / Application: Microsoft Windows CE 6.0 / MAGNET™ Field

Kit Components

- DX Series Total Station: Operation manual
- Battery x2 (BDC70): USB memory
- Battery charger (CDO88): Laser caution sign-board
- Power cable: Carrying case
- Lens cap: Carrying strap x2
- Lens hood: Screwdriver
- Tool pouch: Lens brush
- Screwdriver: Adjusting pin x2
- Cleaning cloth:
